Subject: RE: Bradford Island Pre-FFA Work and Coordination Proposal

Ann,

Thank you for providing this letter. I look forward to talking about it, especially the work consultation process that is to occur prior to the FFA, during our call this Monday.

Yakama Nation is aware of the letter and has expressed an interest to EPA in being provided with a copy of it. EPA officials are in favor of providing a copy to Yakama Nation since the letter explains a good deal about the ongoing work. Please let me know if USACE would accept EPA sharing a copy of the letter with Yakama Nation.

Respectfully,

Richard

Subject: Bradford Island Pre-FFA Work and Coordination Proposal

Richard, Gary and John,

Attached please find the USACE letter as discussed on our last FFA negotiation call. This includes information on the Bradford Island cleanup documents that are currently in progress at USACE with our anticipated completion periods, a proposed pre-FFA coordination process based on the Fort Eustis Model FFA, and information about the public involvement plan that is being prepared including development of the Community Advisory Group if there is sufficient interest. We can discuss this on our next call.

I understand there was a meeting of the project managers for our agencies this week to discuss technical aspects of the ongoing work. Those meetings will continue and provide a forum for them to discuss the technical aspects of this work.

Thank you, and have a nice weekend.

VR, Ann
